

TURON TUTOR TOS

Effective 3/26/19

To summarize, you must reply to messages a student sends immediately and not help them cheat. Nor must you accept monetary payment in any form outside of the Turon platform. Failure to comply can result in a forfeit of earned funds, permanent banning from the service and legal action taken against you. Tutors who complete more session through Turon earn more money overall.

Students are often looking to be tutored within a short period of time from contact and timing is of the essence. I agree that I will respond to a student's message or email as soon as I receive it and at the latest, 6 hours after receiving it. If you cannot make a time suggested by the tutor, you must attempt to reschedule the appointment, if you are not currently tutoring, please let the student know. Failure to reply within 72 hours will remove you from the database. It is also recommended to meet in a public place like a coffee shop or library to meet your student for the first time. By agreeing below, you are also agreeing to not engage in or help a student cheat, plagiarize or commit academically dishonest in any form.

Payments outside of Turon

I will not accept or pay for services of any kind that are not on the Turon platform. This includes cash payments, electronic payments, bartering or exchanges of any kind for the services that are provided on Turon unless they are through the Turon payment platform. If an individual is found in violation of this clause and pays for services outside of Turon, they risk legal action being taken against them as well as a permanent ban from the service.

By Clicking Agree, you are accepting the terms set forth in this agreement in addition to the student TOS agreed upon earlier.
